# ABOUT THE PROGRAM

# MASTERCLASS LEADERSHIP

**Masterclass Leadership** is a global program for leaders with world authorities. After the 'covid years,' we meet again at a three-day conference to continue building an international community of **young and mature** leaders who care about **“Future thinking and back to values.” Debating the challenges and values of tomorrow is our DNA.**

During the event, held in a “generational clash of views” formula, in cooperation with the **Vatican Observatory**, **NASA**, the Future of Humanity Institute (University of Oxford), and the Global Priorities Institute, we will meet international experts, diplomats and experienced entrepreneurs.

**How to apply ideas in science effectively in business. 3 days of inspiring meetings around new ideas, economy, future technology with international experts and leaders representing international organisations, universities and companies**

# WHO ARE OUR PARTICIPANTS? SOCIALLY RESPONSIBLE ENTREPRENEURS FOR ONE FUTURE

OUR YOUNG  
LEADERS  
MASTERCLASS  
2019

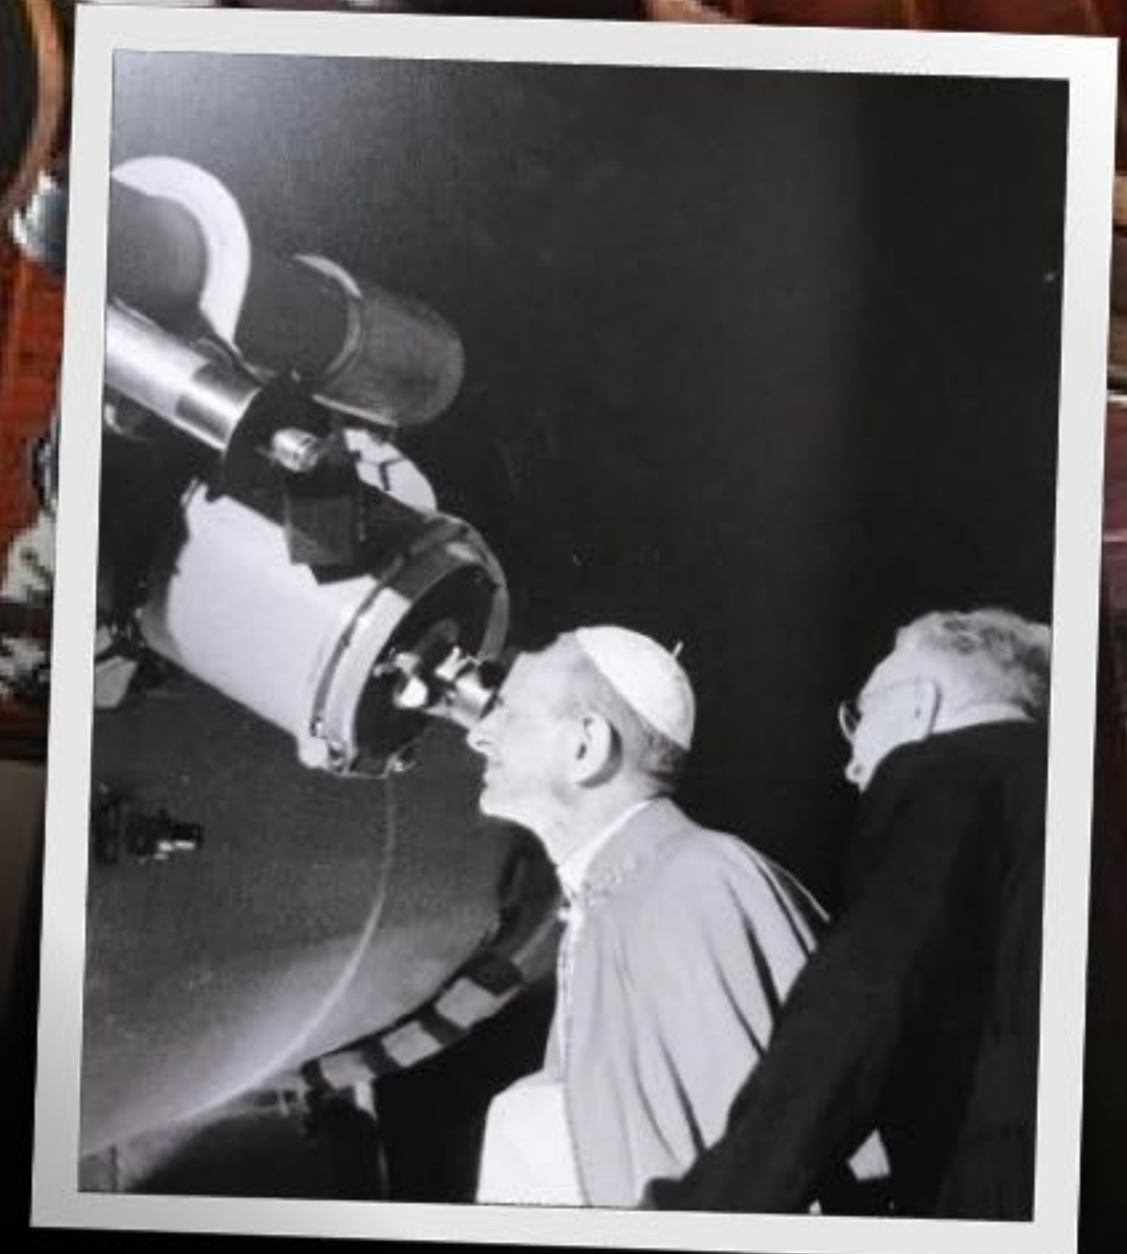

Due to the unique location, we have a limit of **150 leaders** – owners and **CEOs from Europe with their adult children.** Others who would like to enjoy in the event will have access to **videos from the event.**

In the 'covid years,' almost 8,500 leaders representing 95 organisations and universities in 100 of the world's countries registered for our online "Masterclass" editions – with **NASA** in 2021 and with **Sophia the Robot** in 2022. Now that the world is returning to normal, we would like to meet in person in 2023.
